One-machine multi-purpose, one-stop grooming new experience

① Shaving: Easy shaving for a refreshing man (U-shaped beard trimming blade can be used with beard comb)

- Comfortable cutting and shaving, curved edge contributes to trimming smoothly, without hurting skin;
- The U-shaped beard trimming blade is equipped with two beard combs, which can easily adjust the length;

② Nose/Ear hair trimming: Trimming nose hair and ear hair to easily groom yourself well to prevent embarrassing moments

③ Body hair removal: The skin is smooth and the whole body is trimmed without leaving behind.

- Easy and smooth shaving, fast and comfortable hair removal without pain;
- R linear razor for hand and leg, net in the middle for trimming short hair, and arc razor for armpit/bikini;

④ Hair Lettering: Trendy style and unique design

Grooming Kit Pro

40 Length Settings 0.5mm Precision

- Turn the trimming length adjustment knob to adjust the cutting length of the comb, which is the length of the stubble that will be retained. The length is freely selected, and the shape is more fashionable.

Stainless steel blade head, automatic grinding, no skin injury

- Reciprocate about 6,000 times per minute, with soft vibration and smooth shaving.
- Three-point metal buckle fixation makes the blade head not easy to fall off, so it is safer to use.

Intelligent digital display, the electric quantity is clear

- During charging and using, LED digital screen displays specific electric quantity;
- When the battery shows 10%, it means the battery is low. Start flashing to remind charging.

Type-C Type-C charging, 90 minutes full charge runtime

- Charge for two hours, which can be used for about 90 minutes without frequent charging;
- Power bank, computer, mobile phone adapter, etc. can be used together, and charging is more convenient.

Quick Charge

- When the battery is out of power, the shaver head can operate normally for 10 minutes after being connected the power supply for fast punching for 5 minutes.

Travel Lock Design

- Travel lock design. Press and hold for three seconds in shutdown mode, and lock symbol flashes three times to enter travel lock mode; Press and hold for three seconds in locked state to turn off travel lock mode for normal operation.

The whole machine meets the IPX7 waterproof standard, which is worry-free, clean

- After use, you can rinse directly with water to quickly clean up the broken hair and the stubble.
